

CASCATA PERGOLA

sturdesign
create a sense of place

Cascata Pergola

Rectangular pergola utilizing 152mm x 152mm (6" x 6") aluminum beams and columns with vertically oriented 51 x 102 (2" x 4") inset purlins and aligned privacy panel (waterfall). Components are pre-finished in premium polyester powder coating and mechanically fastened using stainless steel hardware. Cascata can be made to your specifications, typical length is 6401 (252") however longer lengths can be provided subject to lead times. Typical height: 2438 to 3048 (96" to 120"). Cascata can be specified as single unit or multi-section modular installation.

Lighting | Infrared Heating | Power and Charging

All sturdesign shade products can be manufactured to accommodate internal wiring for power supply. We can prepare our products to receive your specified lighting or heating. Our structures can also be prepared for SOLAR PANELS, USB CHARGING and OUTDOOR SPEAKERS - based on your project requirements. Electricians are required to complete installation. Contact your local representative or email info@sturdesign.com for options and specifications.

Retractable Shade, Curtains and Blinds

Manufactured with Sunbrella or equivalent specified fabrics, our retractable roof panels provide additional shelter from the strongest rays of sunlight. Retractable curtains and blinds offer a more private experience while providing additional sun protection or deflection of cooling breezes. Contact info@sturdesign.com for options and specifications.

Finishes

We offer a range of super durable powder coatings in a wide selection of finishes. Please go to www.sturdesign.com/finishes.

Smooth Finishes

Textured Finishes

Let us know what color you require or send us a sample and we'll do all the work to ensure the best possible color match. Additional costs may apply, please contact us if you require specific information.

Standard RAL and Color Matching Available

Installation

Sturdesign's pre-fabricated manufacturing process simplifies onsite assembly and installation. We provide step by step instructions and we supply the tooling heads to engage any optional tamper proof stainless steel hardware. Typical bolt-down installation utilizes wedge anchors or embedded rods, custom site-specific solutions are available.

Maintenance

Sturdesign structures are designed to provide extremely long service life. The powder coating will provide a high-quality finish for many years. Inspections of mechanical fastenings, including column and building connections, should be conducted yearly and cleaned / tightened as necessary.
